Letter of Support

I am sending this letter of support on behalf of Angel and Steve Sheets of Gg's House and their endeavor to acquire a new location for their business on the former Yogananda site in the Laurelwood Community. I have only been associated with the Gaston Rural Fire Protection District since 2023. During my tenor here I have become acquainted with the work that these folks do within our community as individuals and business partners. They are both solid citizens and care very deeply about their community and the people that reside here. I have had opportunity to visit with both Angel and Steve and they are both very nice folks and I appreciate having got to know them.

Gaston Fire has both benefitted from the generosity of Gg's house and partnered with them on several events. During the Lee Falls Fire Gg's House sprang into action providing much needed field snacks and drinking water and beverages. The tired, working crews were very appreciative of having these supplies available.

Gg's House has also supplied us with resources for our annual community Easter Egg hunt for the local community, resupply of our Baby Box when items expire, blankets to be used for patients or displaced individuals that we come across on emergency scenes, and stuffed animals for comforting the young children from emergency events.

We have also had the good fortune to have Gg's House help us with finding housing for area displaced individuals that we struggled finding resources for otherwise. Gg's House is involved in the community sponsoring portions of the Annual Wapato Showdown and our

community National Night Out event (and probably others that I am not even aware of). Gaston Fire has also been fortunate to provide Gg's house with items that we have surplused that that still had value and use of others.

I am excited to hear that Gg's House is potentially coming back to our community and service district. It's also an excellent opportunity to get a working business into the underused Laurelwood community. For all of these reasons listed, I stand in solid support of Steve and Angel Sheets and Gigi's House being considered for this opportunity.

Thank you!
